

Carbide-edge Milling and Routing Cutters

These durable, long-lasting cutters are specially designed for use on grinding trucks and walk-behind scarifiers.

Where to use them...

- Traffic line removal
- Epoxy removal
- Thermoplastic removal
- Waterproofing membrane removal
- Cold plastic coatings removal
- General scarification

And why.

- Aggressive tool that leaves a smooth finish
- Remove all types of material
- Long lasting
- Fit all machines

Carbide-Edge Routing Cutters/Crack Chasers

Part Number	# of Teeth	O.D.	I.D.	Thickness
KRMC-363 Hub	8	3.63	1.00	.36
KRMC-363 w/out Hub	8	3.63	1.00	.36
KRMC-484 Hub	8	4.84	1.00	.36
KRMC-484	8	4.84	1.00	.36
KRMC-650 w/out Hub	8	6.50	1.00	.36

Milling Cutters

Part Number	# of Teeth	O.D.	I.D.	Thickness
KRMC-401115	5	1.575	.591	.433
KRMC-402215	5	1.575	.591	.866
KRMC-552218	6	2.165	.709	.866
KRMC-552225	6	2.165	.984	.866
KRMC-802026	6	3.150	1.024	.787
KRMC-802030	6	3.150	1.181	.787
KRMC-803930	6	3.150	1.181	1.535
KRMC-803926	6	3.150	1.024	1.535

*All milling cutter sizes are available, even if not included on our spec sheet.
