OD 1-3/4"
ID 5/8"
THICKNESS 1/4"

PART NO. KR8PTSM
OD 2-1/4"
ID 1"
THICKNESS 1/4"
OD 2-1/4"
ID 3/4"
THICKNESS 1/4"
OD 2-1/4"
ID 5/8"
THICKNESS 1/4"

PART NO. KR8PTLG
OD 3"
ID 1"
THICKNESS 5/16"

PART NO. KR12PT
OD 3"
ID 1" or 1-3/16"
THICKNESS 5/16"

The quality comes quickly.

Since 1947, the Kut-Rite Manufacturing Company has proudly offered the finest quality tools in the industry. Over the years, we have upgraded our materials, refined our skills and improved our production procedures. Today, our proprietary methods enable us not only to produce the absolutely finest quality scarifier cutters in the world, but also to provide our customers with remarkably fast turnaround, even on special jobs, custom sizes and prototypes.

Our products are sold through industrial distributors and directly to industrial users, rental companies and original equipment manufacturers.

A cutter for every surface. A cutter for every purpose.

Nothing works harder than Kut-Rite's new full-face carbide scarifier cutter. It does the work of three, replacing steel, solid and carbide-inserted flails. It leaves whatever surface you want, from smooth to rough to everything in-between. Three times the amount of carbide and our patented keylock construction mean a sturdy, long-lasting tool that delivers cut after cut after cut.

Kut-Rite.
 No matter how you cut it.
