

Conquer25: More of a system than just a machine

The anchor piece of the entire Conquer series of machinery, the powerful 540-pound Conquer25 grinder and polisher combines a dual-phase 7.5 horsepower motor and a 25-inch grinding/polishing path.

This three-headed planetary movement machine is best suited for medium to large jobs and designed for both wet and dry applications. Like most Conquer models, it comes equipped with a standard three-gallon water tank. For removal usages it connects to the Kut-Rite KleanRite™ RF31 Vacuum.

The Conquer25 is targeted for the mid-level contractor and is suited for 10,000-square-foot type projects. It is available in dual-phase electric or propane (see the Conquer25 LP). The electric model can run on single phase or three-phase power.

Like the rest of the Conquer series, the Conquer25 is fit with Kut-Rite's **Belt-Drive System** and **Quick Disconnect (QD) Tooling** for ease of use. In addition, the **Tilt-Back Bowl** design head offers quick, safe and easy tool changes.

Featured accessories include Bi-directional, quick attach and magnetic PCD plates; magnetic eight-way scraper plates; scarifier plates for removal usage; different metal bond diamonds for grinding; and several different types of pads for concrete polishing. Kut-Rite also offers traditional bolt-style tooling.

Expert's tip: The anchor machine of Kut-Rite's Conquer series, the Conquer25 is the most popular, most universally sought out grinder and polisher for contractor's doing jobs with a substantial amount of square footage. It was designed and built as more of a system than just a machine, hence it includes all the key features that streamline workload and cut labor costs.

The Conquer25 is the anchor of the Conquer series of grinders and polishers and is popular among distributors and contractors alike. On the lower left is a polished, finished floor at the 3000-grit level. On the lower right, a polished, finished floor at the 800-grit level with charcoal coloring added.

Part Number	KRMCCconquer255
Model	Conquer25 VS Grinder
Power	7.5HP 220V Dual Phase
